PROFESSIONAL SUMMARY

Flutter Developer and Frontend Engineer with hands-on experience in designing, developing, and deploying production-grade mobile applications and responsive web applications. Strong expertise in Flutter, Dart, Firebase, React.js, and Next.js, with experience in real-time location tracking, background services, offline-first architecture, REST API integration, and clean architecture. Graduated in August 2025 and actively seeking full-time roles as a Flutter Developer, Mobile App Developer, or Frontend Engineer.

TECHNICAL SKILLS

Mobile Application Development
• Flutter, Dart
• Android application development, Android fundamentals
• Background services, foreground services
• Offline-first architecture, local data persistence
• GPS location tracking, real-time updates
• App lifecycle management, state restoration

Frontend Development
• React.js, Next.js, JavaScript (ES6+)
• HTML5, CSS3, Tailwind CSS
• Responsive design, cross-browser compatibility
• SEO optimization, UI/UX best practices

Backend & Cloud
• Firebase Authentication, Cloud Firestore, Firebase Storage
• REST APIs, API integration
• Node.js (basic backend integration)

Architecture & Tools
• Clean Architecture, State Management
• Git, GitHub, version control
• Netlify deployment
• Debugging, unit testing, performance optimization
• Agile development, SDLC, sprint-based development

PROFESSIONAL EXPERIENCE

Flutter Developer — Go Extra Mile Pvt. Ltd
March 2025 – July 2025
• Designed and developed a production-grade Flutter mobile application for real-time ride tracking using GPS location services.
• Implemented background execution and killed-state persistence to ensure continuous tracking even when the app is minimized or terminated.
• Built offline-first functionality by storing ride data locally and syncing automatically with Firebase Cloud Firestore upon network reconnection.
• Integrated Firebase Authentication, Firestore, and Storage for secure user management and real-time data synchronization.
• Developed intelligent app state restoration to recover ride progress, UI state,

odometer images, and timestamps after crashes or app restarts.
• Implemented real-time chat functionality using Firebase for clubs with role-based access and persistent message storage.
• Followed clean architecture principles and modular code structure to ensure scalability and maintainability.

Frontend Developer (Contract) — Opti Realty
June 2024 – August 2025 (Part-time / Contract)
Tech Stack: Next.js, JavaScript, Tailwind CSS
• Designed, developed, and deployed a production-ready real estate web application using Next.js.
• Implemented dynamic property listing pages with search, filtering, and detailed property views.
• Built responsive and mobile-friendly UI components using Tailwind CSS.
• Optimized website performance using lazy loading, optimized image handling, and efficient routing.
• Applied SEO best practices including meta tags, clean URLs, and optimized page structure.
• Deployed and maintained the application on Netlify using Git-based version control.

Frontend Developer (Contract) — Coyolia Technologies
October 2025 – November 2025
• Designed and developed responsive user interfaces for internal dashboards and approval workflow systems.
• Translated low-fidelity Excalidraw wireframes into high-quality, production-ready UI components.
• Collaborated with backend developers to integrate REST APIs and ensure seamless UI–API communication.
• Maintained consistent design systems, layouts, and UI standards across modules.

Data Science Intern — BrainOvision Solutions Pvt. Ltd
May 2023 – June 2023
• Performed exploratory data analysis (EDA) on large datasets to identify trends and patterns.
• Tested, validated, and improved machine learning models to enhance prediction accuracy.
• Worked with data preprocessing, analysis, and basic model evaluation.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science (Data Science)
Geethanjali College of Engineering and Technology, Hyderabad
Graduated: August 2025 | CGPA: 7.0

Class XII (Higher Secondary)
Little Flower Junior College, Hyderabad
Completed: October 2021 | Percentage: 8.7

Class X (ICSE)
Johnson Grammar School, Hyderabad
Completed: June 2019 | Percentage: 7.35
